Life can still be fun and active, even after suffering a stroke and living with the results.
JRC Adult Day Member, Virginia came to the adult day center after suffering partial use of one side of her body, especially her hand.
She began slowly trying out daily activities at the center. She was having so much fun making friends and enjoying her time at the adult day center, that she decided to add weekly water aerobics to her list. So off she went to the Meyers Lake YMCA every Tuesday on the JRC field trip. After going there for some time, she noticed one Tuesday that her hand was very mobile in the water. She realized that this activity is of great help in getting her strength back in her hand. Therapy without even realizing it...

Now look at her go...field trips, bowling, crafts, etc. - you name it - she tries it!
The adult day center has changed the lives of so many senior members that it is becoming contagious as they talk each other into more activities, field trips and adventures.... The remodelled adult day center will be able to offer more seniors these experiences and activities - double the number currently served.

The remodelled adult day center will be able to offer more seniors these experiences and activities - double the number currently served.

Call JRC at 330-455-3873 ext. 405 to schedule a tour of the JRC Adult Day Center and/or the JRC Learning Center.
